

CAREOS · FOR FARAZ · PRACTICE TONIGHT, PRESENT TOMORROW

Practice Tonight

A one-hour walk-through you can do at the kitchen table. Everything you need. Nothing you don't.

THE WHOLE POINT

You built this from lived experience — autism in your family, NDIS as a parent, business and customer sense. You are not selling security infrastructure. You are selling a way of working that would have changed your family's life. **Stay in your lane. That's where your power is.**

Tonight's plan · 60 minutes

1

Open the folder & the demo 5 min

Open the Drive folder in one tab. Open `careos-demo.netlify.app` in another. Password: `TenderLovingCare2026!`. Enter it once. Stays unlocked for the whole evening.

2

Watch the 100-second film 3 min

Open **Backup Walkthrough Film** from the folder (or go to `careos-demo.netlify.app/proposal/watch.html`). This is exactly what Yasser will see. Watch it once. Notice the pacing. Notice how the coach cards read themselves.

3

Take the parent tour yourself 10 min

Back on the live demo. Bottom-right corner: click **"A Day in the Life"**. Pick **"A parent's story"**. Click through all 9 stops. Read each card out loud.

These are your pains. You've lived every one of them. Say them like you mean them — because you do.

4

Take the worker & CEO tours 6 min

After parent journey completes, tap **"Next: A worker's shift"** (4 stops). Then **"Next: Your view"** (4 stops — the CEO lens). Same product. Three truths. That's the story.

5

Read the Session Plan v2 12 min

Open **SESSION PLAN — FINAL v2**. This is your script. Follow the run-of-show: 0–15 teach · 15–24 hands-on · 24–35 capabilities · 35+ ask. Skim the pre-flight checklist. Read the objection cards.

6

Read the FAQ + Security Card 8 min

Open **FAQ + Security Card** (also in the folder). Focus on the *must-know* 5 and the one security line. Say the security line out loud three times. Own it.

7

Skim the deck 10 min

Open **01 — Board Presentation**. Click through the 25 slides in Presenter view. Read the speaker notes on the bottom of each slide. Don't memorise — just get familiar.

8

One dry run — start to finish 6 min

Deck open. Demo open. Timer on your phone. Do slide 1 to slide 12, hand off to the tour, one journey (parent), back to slide 13. Don't do the whole thing. Just prove to yourself the transitions work.

If you get to the end and it felt smooth — you're ready. Sleep on it.

ASK

Q&A

OPEN

0:00 – 0:15 · TEACH

Slides 1–11

Reality of NDIS · the idea · why it matters. He listens.

0:15 – 0:24 · HANDS-ON

Tour · 3 journeys

Slide 12: “Let's make it real.” Point to the button.
Parent · Worker · CEO.

0:24 – 0:35 · CAPABILITIES

Slides 13–22

Pick 3–4 modules — family access, compliance, shift AI, homes. Show breadth.

0:35 – 0:40 · ASK

Slides 23–25

Partnership, not a sale. Design partner. Next steps.

Say these lines with your chest

“I built this from lived experience. My son has autism. I've been the parent waiting by the phone. Every screen you're about to see answers a pain I've felt.”

“It's not a compliance tool. It's not a rostering tool. It's one platform where a shift note becomes evidence, a photo becomes a family moment, a goal becomes an outcome.”

“I'm not a security expert, and I won't pretend to be. Security is the next hire. If we go forward, we co-design that with your IT team — that's what a design partner should shape.”

“I'm not asking you to buy a licence. I'm asking you to be a design partner. You have the scale. I have the lived experience. Together we build the reference case.”

Before you leave the house

- ✓ Laptop charged. Backup charger in the bag.
- ✓ Demo open in one tab. Password entered. Deck open in another tab.
- ✓ Hotspot on your phone in case of Wi-Fi issues.
- ✓ Water. Breath mints. Something small to eat before you go in.
- ✓ Executive Brief printed (1 page) — hand him a physical copy at the end.
